

## OCTOBER 2025 NEWSLETTER

**VILLAGE OF LANSING** *Incorporated 1974*

2405 North Triphammer Road \* Ithaca, NY 14850 \*607-257-0424 \* (FAX) 607-257-3230

Office Hours: Monday - Thursday, 9:00 AM - 1:00 PM

**NEW Web Page Address: [www.villageoflansingny.gov](http://www.villageoflansingny.gov)**

Board of Trustees' Meetings: 1<sup>st</sup> and 3<sup>rd</sup> Monday, 7:30 PM

Planning Board Meetings: 2<sup>nd</sup> Monday and last Tuesday, 7:00 PM

Board of Zoning Appeal Meeting: 3<sup>rd</sup> Tuesday as needed; 7:00 PM

Currently all meetings are being conducted in person and via Zoom. Meetings are posted on YouTube.

---

### COMMENTS FROM THE MAYOR

Welcome to the Fall 2025 Village of Lansing newsletter! As leaves begin to turn and we settle into (hopefully) cooler days, the village continues moving forward with exciting developments and progress. In this newsletter, you will read about the completion of our five-year Climate Smart Communities Bronze certification, ongoing DPW infrastructure enhancements, potential business and residential developments and openings, our successful domain migration to **[villageoflansingny.gov](http://villageoflansingny.gov)**, in-progress updates to our Village Code and Comprehensive Plan, new Village Board members, the completion and release of the Tompkins County Joint Safety Action Plan, and local community activities and service opportunities. I hope our updates keep you informed, inspired, and connected to the work we do on your behalf.

Unfortunately, at both the federal and New York state levels, uncertainty continues to shape our political and policy landscapes. A combination of federal- and state-level volatility adds complexity to local governance and planning, making it difficult for communities to anticipate long-term impacts with confidence. However, be assured that our Village government and staff will continue to plan for the short- and long-term progress and stability within our community through our long-standing commitment to apolitical discussions, decisions, and actions.

In April's Village election, Patrick Gillespie, a long-time member of our Planning Board and Board of Zoning Appeals, was elected to his first term as a Village Trustee. Kevin Kelvington was appointed to the Planning Board replacing Yamila Fournier who stepped down to move to Ireland with her family for a couple of years. The Village Board of Zoning Appeals also has two new members: Devin Walker and Michael Wallisch. Please welcome these individuals to our local government.

**NOTICE:** the Town of Lansing Highway Departments will begin the Fall 2025 brush and limb collection service on **Monday, October 6**. See the related article in this newsletter for more details.

Lastly, I wish everyone a wonderful fall and 2025-26 holiday season.

Ronny Hardaway, Mayor

### **Village Migrates to villageoflansingny.gov Domain**

New York state will soon require that websites for local governments with populations greater than 1,500 residents move to the .gov domain to clearly define a local government. To prepare for this state requirement, the Village of Lansing applied for and was approved to move to a .gov domain. Over the weekend of September 12-14, the Village successfully migrated from the old vlansing.org domain to our new **villageoflansingny.gov**, including the website (now <https://villageoflansingny.gov/>) and email accounts.

**NOTICE!** Any email that is sent to the old @vlansing.org accounts will be automatically forwarded to the @villageoflansingny.gov accounts, but we recommend that you update your contact information for all vlansing.org contacts to use the new villageoflansingny.gov domain name.

### **Donald Hartill, Longtime Mayor, Passes Away – Village Renames Park in His Honor**

We are profoundly sad to announce that longtime Village of Lansing mayor, Donald L. Hartill, passed away on April 16, 2025. He was a trustee from 1989-1993 and deputy mayor from 1993-1996 before becoming the village's fifth and longest serving mayor, a position he held from 1996-2021. To recognize Mayor Hartill's service to our Village, the Board of Trustees voted to rename the Marian Hartill Village Park to Donald and Marian Hartill Park. A new sign was ordered and installed in July.

### **Would You Like to Volunteer to Help Our Village?**

Are you interested in public service within the Village of Lansing? Use our new "VOL Public Service Form" (<https://villageoflansingny.gov/vol-public-service-form/>) to communicate your interest in a board position, an advisory committee or task force membership, or to become a "Friend of a Park." Friends of Village Municipal Parks keep an eye on their park – alerting the DPW department about any needed repairs and lending a hand with small tasks like weeding, picking up litter, and light landscaping.

## **VILLAGE CLERK'S OFFICE**

### **Sewer Rate Increases as of October 2025 Billing for Village Residents**

The Village of Cayuga Heights has increased its sewer rate from \$7.59 to \$9.48 per 1,000 gallons of water consumption. The Village of Lansing surcharge remains the same at 25% of the Bolton Point water rate or \$1.68. This results in a minimum sewer charge of \$55.80 or \$11.16 per thousand gallons of water consumption. This new rate will begin with your October 2025 billing. The Village of Lansing does not have its own sewer plant; it is sent to the Village of Cayuga Heights Plant.

### **Water/Sewer Bills**

Village of Lansing Residents receive a bill quarterly at the beginning of January, April, July, and **October**. You will receive a postcard bill if you have not signed up for eBilling only. All water/sewer bills are due by the 20<sup>th</sup> of that month and can be either mailed in or you may bring your payment to the Village Office at 2405 N. Triphammer Road. There is a secure drop box inside the entry way to our administration building for you to drop off your payment anytime. The Village does not accept credit card payments.

### **Village Meetings**

Currently, all our meetings are being conducted in person and online via Zoom. If you are interested in attending a Board of Trustee meeting via Zoom, please contact Jodi at [clerk@villageoflansingny.gov](mailto:clerk@villageoflansingny.gov). If you would like to attend a Planning Board or BZA meeting, please contact Mike Scott at [codeofficer2@villageoflansingny.gov](mailto:codeofficer2@villageoflansingny.gov).

### **Village Sponsored Street Tree Planting Program**

Village of Lansing residents can get reimbursed for up to two street trees per year for up to \$100 each as part of the Street Tree Planting Program. The Tree Planting Application can be found under Applications and Forms on the Village website or in the brochure rack in the Village Office foyer.

### **NYCOM's 70<sup>th</sup> Annual Fall Training School for City and Village Officials**

The week of September 15, Clerk/Treasurer Jodi Dake and Trustees Carolyn Greenwald and Pat Gillespie attended the New York Conference of Mayors (NYCOM) Conference in Lake Placid. The weather was fantastic and the conference, as usual, was extremely informative. With the laws and requirements constantly changing, this is a great place to get up to date information from the Office of the State Comptroller and NYCOM.

Greenwald attended seminars on Local Government, Albany Update, Open Meetings Law, Customer Service, The First Amendment, Adopting Local Laws, Fund Balance Policy, Clerk Responsibilities, and Ethics. She came back with myriad ideas for the Village including updating or adding local policies, addressing more vigorously the state of vacant buildings along Triphammer Road, and other ways to best serve the Village.

As a newly elected Trustee, this was Gillespie's first NYCOM Conference. He attended seminars on Local Government, The State of AI in 2025, Responding to FOIL Requests, Municipal Websites and Cybersecurity, Customer Service in Local Government, Preparing for Protests and First Amendment Audits, Streets and Sidewalks, Understanding New York's New Requirements on Cybersecurity, and Social Media. The conference was very informative with a lot of information packed into the four days.

## **VILLAGE HIGHWAY DEPARTMENT**

### **Fall Brush Pick-Up**

The Town of Lansing Highway Department will begin the fall brush and limb collection service on **Monday, October 6**. Residents are asked to leave up to one pick-up truck size load near the roadside by 7:00 a.m. To assist the work crews, all limbs and brush (up to 5 inches in diameter) should be piled with the cut ends facing the same direction. The limbs should be no longer than 6 feet in length. Also, the piles should not be tied but should be left loose. Please do not put out bags of yard waste. This pick up is only for limbs and brush.

The Village of Lansing Department of Public Works will be finishing up the trail work in the Lansing Trails I area. We are scheduled to add the top course next week. Please avoid these areas if possible.

We are scheduled to have the portion of Graham Road from North Triphammer Road to Wakefield Road paved the week of October 13, weather pending. A profile milling machine will be used prior to paving the road.

The sidewalk improvement project for Uptown Road and Craft Road will see a temporary pause while the Village waits for the results of a grant application through Climate Smart Communities and NYSDEC. The results should be in later this year or early 2026. While waiting the village will fine tune the design and relocate any conflicting utilities.

Cayuga Hills and Hampton Hills were scheduled to be resurfaced this year, but, while performing routine cross culvert inspections, it was noticed that a few storm pipes will need to be replaced. We hope to replace those this year and allow a freeze/thaw cycle. We will postpone the new surface until spring of 2026.

### **Sewer Expansion Update**

The Village officially sent out letters to residents along the new sewer benefit area on Cayuga Heights Road, Twin Glens Road, and East Shore Drive. If you have any questions or concerns, please reach out to me at 607-280-4893 or by email at our new email address- [dpw@villageoflansingny.gov](mailto:dpw@villageoflansingny.gov).

John Courtney, Superintendent of Public Works

### **CODE & ZONING DEPARTMENT**

With fall upon us, I would remind everyone that there are numerous scenarios in which a building permit would be needed. I would encourage individuals who are interested in additions, new construction, remodeling, installation of a solid fuel burning heating appliance, chimney or flue, installation of new heating equipment, decks, solar arrays, pools, roofs, etc. to visit the Village of Lansing Office at 2405 North Triphammer Road or email me at [codeofficer2@villageoflansingny.gov](mailto:codeofficer2@villageoflansingny.gov) for any questions they might have. I will also be sending out letters to those who have open permits that may need renewal or a scheduled appointment to finalize. Please remember, an open permit may affect your insurance or ability to sell your home.

### **2024 NYS Uniform Code**

The new 2024 New York State Uniform Code will be in effect starting January 1, 2026. Some of the notable changes include:

- All new residential and commercial buildings must be all electric. (there are some exceptions)
- Sprinkler systems are required in the new construction of townhouses.
- There is an increase in Energy Code requirements.

If you have a particular question, please contact me at the email above.

### **Stormwater**

As beautiful as the fall leaves are, that means a lot of yard work for local homeowners. One option for reducing your workload is to use a mulching lawn mower to mulch leaves into your yard. It is less time intensive than raking and the shredded leaves act as a natural fertilizer during the fall. While you are tending to your yard, take a moment to sweep or rake leaves and branches out of the street in front of your house. Left in the street, they can clog storm drains and contribute to localized flooding. When washed into our nearby lake and streams via storm drains or ditches, the leaves become a major source of phosphorus, the nutrient that allows algae to bloom in the summer. Dispose of leaves by composting them in your yard is also a good alternative. Keep leaves and yard waste out of the regular garbage and never dump them in wetlands or buffer areas. Roofs, driveways, snow melt, and lawns all provide stormwater runoff that could potentially end up in Cayuga Lake. All should be mindful of what is spilled or placed on these surfaces. Please clean up any spills that occur, attempt to minimize the fertilizers for lawn care, and properly dispose of pet waste. This is an important task since the Village and four other municipalities are provided drinking water from Cayuga Lake.

**Please remember to check/replace the batteries in all Carbon Monoxide and Smoke Detectors.**

Michael Scott; Code, Zoning & Stormwater Management Officer

## PLANNING BOARD NEWS

In July, the Board of Trustees and the Planning Board held a joint meeting to discuss the goals of the upcoming Comprehensive Plan. We also had quite a few changes to the makeup of the Planning Board. Pat Gillespie left after being elected to the Board of Trustees, Yamila Fournier left because she was moving out of the area, and Kevin Kelvington was appointed as a new member. The Planning Board also met with multiple village residents who are interested in joining the Planning Board.

After much discussion, the Planning Board formally recommended changes for the Board of Trustees to review pertaining to the Tree Conservation and Planting Law. A special permit was granted to open a daycare and after-school program in a portion of the building location at 2343 North Triphammer Road, which is owned by Lama Brothers LLC. A subdivision was approved for 56 Burdick Hill Road, which also requires approval from the Town of Lansing due to its location. An informal presentation was given to the Planning Board regarding possible development of the property located at 11 Graham Road West.

For the last few months, the Planning Board has been focused on village code changes and corrections. This process involves reviewing the current chart of uses, associated code, terms/ definitions, and zoning of parcels. We are about 2/3 of the way through the review process and once that is completed we will go through all the recommended changes as a whole before recommending them to the Board of Trustees. We hope to have this process complete by the end of the calendar year.

Mike Baker, Planning Board Chair

## VILLAGE TRUSTEE REPORTS

### Update from Trustee Susan Ainslie

Donald Hartill, former Village of Lansing mayor, was the Village of Lansing representative on the Southern Cayuga Lake Intermunicipal Water Commission for many years before his passing. At the organizational meeting in May, Susan Ainslie was appointed to represent the Village along with Mayor Hardaway. Ainslie is on the Budget and Finance, Engineering and Operations, and Planning and Public Affairs committees.

Additionally, Ainslie serves as the Trustee liaison to the Greater Tompkins Insurance Consortium and as the alternate representative to the Tompkins County Council of Governments. Ainslie also continues to represent the Village on the Youth Services Board.

### Comprehensive Plan

As your Comprehensive Plan Committee Chair, Carolyn Greenwald is happy to report that the committee's draft of the plan is complete and is in the competent hands of Trustee Pat Gillespie for final design and formatting. The draft will be made available to the public shortly for viewing and comment. The Village will also hold a public hearing at the end of the year for additional public outreach and comments. It is not too late to participate in the plan survey for either residents or businesses. Please use the links below or contact me directly at [cbgreenwald@gmail.com](mailto:cbgreenwald@gmail.com).

Village Resident Survey: <https://forms.gle/36oye2etFggBGvjb8>.

Village Business Survey: <https://forms.gle/hStuZ258C37mj8c97>.

### **Town Trail Committee**

The Town of Lansing recently updated its Town Center Trail Policy to include all the current trails on one map and in one resolution. The Town Center trails are located at 90 Auburn Road, across from the Town ball fields and next to Salt Point Brewery. If you have never walked the trails, I highly recommend a visit. The fall colors and the vista are spectacular.

Using grant money, the Town has hired MJ Engineering to conduct a Lansing Town Center Feasibility Study and draft a Lansing Greenway Master Plan. In accordance with this, MJ is conducting a Town of Lansing Townwide Trail System Community Survey. The survey should be available in the next few weeks. Look for a link to the survey on the Village website.

### **Greenway Committee Update**

The new Comprehensive Plan calls for a Village Trails Network Master Plan and a Village Parks Master Plan. Creating these documents will take a lot of work but the committee is looking forward to advancing our parks and trails via a coherent and well thought out plan.

Carolyn Greenwald, Deputy Mayor

### **Village of Lansing Contributes to Countywide Safety Action Plan**

In the past two years, the Village of Lansing joined nine other municipalities, along with Tompkins County, the Ithaca-Tompkins County Transportation Council (ITCTC), and NYSDOT Region 3, in developing the Tompkins County Joint Safety Action Plan (JSAP). The plan, completed and released in July, outlines strategies and recommendations aimed at making local roads safer for everyone.

The JSAP takes a comprehensive approach to roadway safety, combining analysis of roadway design, traffic volumes, and crash data with strategies to influence user behavior. Its long-term vision is ambitious but vital: the elimination of traffic-related deaths and serious injuries across Tompkins County. By addressing safety concerns for all types of road users—including drivers, pedestrians, cyclists, and transit riders – the plan provides a roadmap for creating safer, more accessible transportation throughout the region. An executive summary is available at <https://safestreetstompkins.com/review-plan>.

### **Invitation to Zoom with The Mayor**

Members of the public are invited to register to meet with Mayor Hardaway via a Zoom conference every Wednesday afternoon between 2-4 p.m. This meeting is an informal, “open-door” meeting in which each registrant may speak or ask questions about any Village-related topic. Please visit the Meet with the Mayor page and click on the “Meet with the Mayor” registration link: [vlansing.org/meet-with-the-mayor](https://vlansing.org/meet-with-the-mayor).

Ronny Hardaway, Mayor

### **Climate Smart Communities/Clean Energy Communities (CSC/CEC) Taskforce Report**

The Village has been Certified by New York State Department of Environmental Conservation as a “Climate Smart Community”

(<https://villageoflansingny.gov/2025/07/11/village-of-lansing-attains-csc-bronze-level-certification/>).

In June 2025, the Village of Lansing received official notification that it was one of three communities recently awarded the New York State Department of Environmental Conservation (NYS DEC) Bronze level “Climate Smart Community” certification. In the July 10, 2025 announcement from the Office of the Governor, the recently certified communities were recognized for their *local actions to address the*

*economic, social, and environmental challenges posed by climate change. The [state] interagency Climate Smart Communities (CSC) program provides guidance and technical support to local governments regarding climate action.*

The Village Climate Smart Community Taskforce recommended local actions, aligned with Village Plans and Policies and CSC goals, to the Village of Lansing Board of Trustees for approval. In collaboration with village staff and Cornell Cooperative Extension Tompkins County Climate Smart Communities/Clean Energy Communities Coordinators and in partnership with area municipalities and organizations, approved recommended actions were implemented and culminated in the recent certification of the Village as a Climate Smart Community.

Examples of accomplishments include, but are not limited to, participation in the county climate-resilient hazard mitigation planning, adopting a shade structures policy, compiling a fleet inventory, adopting a Natural Resources Inventory, providing staff training, participation in the Community Solar and Clean Heating and Cooling campaigns, incorporating sustainability elements in the comprehensive plan, serving as a food waste drop-spot which is managed by the county, tracking energy usage in village buildings, and participating in the preparation of a Government Operations and Greenhouse Gas (GHG) Inventory, and street light replacement with LED street lights.

### **State Grant**

The Village of Lansing's Board of Trustees recently authorized the application for a 2025 Climate Smart Community Implementation grant for the *Uptown Road and Craft Road Sidewalk Connectivity and Expansion Project*, which was submitted at the end of July thanks to the coordinated efforts of: (1) Carolyn Greenwald (Deputy Mayor, Greenway Chair, and grant writer); (2) John Courtney (Department of Public Works Superintendent and CSC taskforce liaison who worked with the Village engineer on the proposed work plan and budget), Jodi Dake (Village Clerk for records management); (3) Climate Smart Community Taskforce Coordinator, Members, and Liaisons (Coordinator Mayor Ronny Hardaway, members Lynn Leopold, Patrick Gillespie, Kathleen Yen, Codes Enforcement Officer Mike Scott, and Cornell Cooperative Extension liaisons, Christopher Skawski and Jerry Sheng who provided expertise, technical assistance and information on funding sources).

If you are interested in learning more and/or becoming involved as a community member or liaison in the ongoing process of building community resilience to a changing climate, please use the interest form on the village website or contact the village. Community members with a background and experience in multiple areas are needed and encouraged to become involved.

<https://villageoflansingny.gov/vol-public-service-form/>

Kathleen Yen, Trustee

## **TOMPKINS COUNTY LEGISLATURE**

2025 has been the Legislature's most eventful year since 2020. Political turbulence and fiscal uncertainty in our national and state capitals, as well as increasing community and capital demands on limited county resources, require careful planning, conservative budgeting, and reevaluation of plans for a new county center of government. The Legislature needs to hear from you about all of these issues.

### **First, the budget.**

Budgeting for 2026 is proving to be exceptionally challenging. Needs in the community continue to increase beyond our resources, and that trend promises to continue – and get worse – as we look ahead to

2027, when cuts to federal programs like Medicaid and SNAP go into effect. We must also anticipate cuts in federal and possibly state grant funding for county programs. (Our Department of Emergency Response reports that it may lose as much as 40% of its federal grant funding over the next couple of years.) At the same time, the inflation that plagues us all has also impacted the county's operations, making even simple maintenance of effort significantly more costly.

We must also consider how to fund some "big ticket" additions to the county's operating budget. Persistent malicious threats against county staff have made it clear that we need to provide county-wide security for our staff and at public meetings – at a projected annual cost of over \$600,000. Several of our departments are understaffed, and the cost of additional positions often exceeds \$100,000 in salaries and fringes. Our airport has requested county funds of almost \$2 million a year for the next three years, in an effort to become more competitive by reducing its costs per enplanement. And TCAT is requesting an additional \$500,000 per year from each of its underwriters (Tompkins County, the City of Ithaca, and Cornell University) to avoid incurring significant operating deficits in the coming years.

Meanwhile, the legislature has appropriated many millions of dollars of fund balance (over my strong and consistent opposition), rather than raise taxes to fund county spending over the past few years. While I understand that we want to keep tax increases to a minimum, I believe that overusing fund balance is neither the most responsible – nor the most transparent – approach to government budgeting. And, because we have substantially depleted our fund balance, most of our 2026 spending increases will have to be covered by property and sales tax revenues.

Bearing in mind that every \$500,000 or so represents a 1% increase in our tax levy, how much should we be spending, and on what? We need to hear from you, our constituents, as we make these choices. Please consider commenting at our Budget Forum (Tuesday, September 30 at 5:30 p.m. in the Legislature Chambers, 121 E. Court Street) and/or at the public hearing on the budget (Tuesday, October 28 at 5:30 in the Legislature Chambers). You can also email the legislature at [legislature@tom-pkins-co.org](mailto:legislature@tom-pkins-co.org), or just me at [ddawson@tom-pkins-co.org](mailto:ddawson@tom-pkins-co.org). Thank you!

### **Capital projects and the new Center of Government**

For years, the Tom-pkins County Legislature has considered and planned for a new Center of Government downtown. I have consistently supported this project because the NYS court system wants our County Clerk and DA staff out of the court building; county staff are currently scattered in several buildings, some of which we lease; and we have many employees working in very cramped conditions. However, years of detours and delays in the planning process have resulted in ever increasing costs, and we're now looking at a project cost of \$50-60 million. At the same time, our Public Safety Building is in desperate need of updating or replacement, and we find ourselves having to build a homeless shelter at considerable cost. Given the challenging fiscal and economic climate, and the demands on our capital budget, I am inclined to consider alternatives to building a new Center of Government. Legislators have begun to explore alternatives to building in the downtown location, including a long-term lease on available properties. I will keep you posted on our progress, and, as always, I welcome your input on this issue.

This is the final year of my second term as your county legislator. It has been a privilege and a pleasure to represent you.

Deborah Dawson, Tom-pkins County Legislator District 10

## GENERAL ELECTIONS

As a result of post-census redistricting there will be sixteen county legislators. The Village of Lansing is part of the new District 7. Election Day is November 4, and early voting begins on October 25.

### **How to Stay Engaged with Tompkins County Legislature**

- Watch legislature meetings on [Tompkins County, NY - YouTube](#)
- Find legislature meeting calendar, agendas, and minutes on the [meeting portal](#)
- Read previous [legislature highlights](#)
- Find your [legislator and legislative district](#)

## TOMPKINS COUNTY RECYCLING

Tompkins County offers a single stream curbside recycling program. The recycling calendar is available at the Tompkins County Solid Waste Management Division office, Recycling and Solid Waste Center at the Drop-off Area, and online at [www.recycletompkins.org/](http://www.recycletompkins.org/). There are also copies available in our brochure rack in the Village Office vestibule, which is always open.

The Village of Lansing is a Food Scrap Recycling Drop Spot. On Saturdays from 10:00 a.m.-1:00 p.m. Lansing residents can bring their food scraps to the parking lot behind the Village Office at 2405 N. Triphammer Road. Food scraps can include meat, bones and dairy and paper towels and napkins. You can also pick up compost containers and bags for free at the Drop Spot or at the Solid Waste Office. Bags are also available in the office during business hours.

## YMCA

### **Trunk or Treat Saturday, October 18**

Bring the whole family for an afternoon of Halloween fun, costumes, and friendly faces at the Ithaca YMCA. Activities include a bounce house, activities run by YMCA staff in the gymnasium and trick-or-treating outside. Trucks are presented by local organizations like Ithaca Youth Bureau, Tompkins County Whole Health, United Way, and more. This is a free event, so bring your family and enjoy an afternoon of community fun.

### **Find Your Fit**

Now has never been a better time to find your Y! From art classes to strength training, there is something for everyone this fall. To view the upcoming programs, visit [ithacaymca.com](http://ithacaymca.com).

## LANSING RECREATION DEPARTMENT

### **9<sup>th</sup> Annual Lansing Community Trunk-or-Treat**

This event will run from 6 p.m.-8 p.m. on Friday, October 31 at Myers Park. Join your neighbors and friends for a fun time this Halloween. Take a stroll through truck alley to gather treats and goodies from our sponsors, enjoy some refreshments, and vote for your favorite trucks and pumpkins from the pumpkin carving contest. Pre-registration is required. Register at [lansingrec.recdesk.com](http://lansingrec.recdesk.com).

The Town Parks & Recreation Department has many great programs that Village residents can participate in. See their website for a listing of all the programs and register online at [www.lansingrec.com](http://www.lansingrec.com).
